**D. Monachis salutē.**

**I** qui forte vestrum patres venerandi aliqua admiratione percussit. huius seu opusculi renouatione cognouerint. quod aliquibus precipue in locis aliqua commutata. alia vero aptius ostensa. nonnulla autem quae antea aliquod quodammodo videbantur in eo antiquitatis retinere non oblitterata: sed iterum posita conueniunt: Sciant quo ad primum multum laboris a me consumatum. ut huiusmodi rerum veritate indagare. eaque enucleatius attractare: Ideoque post multorum hac in facultate peritorum consilium. quod rectum cooperi. scriptumque ab alijs inueni hoc edere non distuli. Quo ad secundum. ea quae non tantum mihi sed et multis visa sunt plurimum in monasterijs in usu esse excerpti. proposuique singularitati (ut iustum est) pluralitatem: atentius aptius aliqua ponere imperitorum rogatum non negavi: Quo ad tertium. multa monasteria consideravi prope libris. uocibus. personisque. ac arte canendi sic indigere. quod si ad manus eorum operusculi huius copia deueniret: si non in totum. in parte tantum suis ac auditorum votis satisfieret: eo potius quam pro diebus possessionis dominice aliquos haberent in eo cantum (etsi aliquid antiquitatis sentientes.) deuotione profusos. ac pro imperitis faciles: Et quod diuersa monasteria diuersos tonos maxime in hymnis tenent: ideo singulos pro posse perscrutatus posui suis locis rubricas: ut unusquisque quod suum est accipiat alienumque relinquat: Hoc in super deprecans ut me vestris in orationibus commendatum retineatis: Et si hoc in operusculo uobis aliquid offediculi occurrerit veniam prebete: quoniam quidem non mea temeritate (non enim me latet incertitia mea) sed caritate huic officio incubentium. ac multoties precibus nonnullorum patrum fatigatum. nomine domini impressoris. puinciaz hanc aggredi coactus sum.
